

For Providers:

Thank you for allowing us to assist in the care of your patient. Please note that Allied Anesthesia, PLLC provides Spravato and Ketamine treatment but does not take over the care of your patient's long term mental health care needs. We require that patients continue treatment with their current providers. After completion of your patient's therapy, you may (with your patient's permission) receive a letter from us updating you on their response to the treatment. If you have any questions, please contact our office at:

[\(270\) 982-0825](tel:(270)982-0825)
